

DEGRISANT BOIS

WOOD CLEANER

la marque
du bâtiment

1. PRESENTATION

DEGRISANT BOIS comes in the form of a ready to use thixotropic gel designed to lighten and clean all types of wood such as pine, oak, larch, red cedar, ipe, iroko, teak etc., even when autoclaved, greyed by weathering and UV, without any risk of discoloration.

2. ADVANTAGES

- Lightens wood without discoloration.
- Cleans and brightens all substrates.
- Neutral with respect to the substrates to be treated (does not attack wood).
- The product can be applied vertically without dripping.
- Quick and easy to use.
- Solvent-free.
- Fully soluble in water.

3. AREAS OF APPLICATION

- Exterior or interior wood, grey or dirty: pine, oak, larch, red cedar, ipe, iroko, teak...
- Horizontal or vertical surfaces: fences, cladding, boat decks, terraces, garden furniture, powdery plastics, greenish stones, rust stains...
- Cleaning of tannin rise on certain types of wood.
- Removal of contamination caused by weathering, pollution, mould, rust...
- Renovation of plastics dulled by UV rays and pollution.

4. INSTRUCTIONS

Implementation:

Once all the necessary guards are in place (plants, paints, slabs, windows...)

Apply the product using a brush or roller.

The coating must be generous and even.

Brush the areas to be cleaned with a stiff brush (do not use a wire brush).

Leave to act for 5 to 20 minutes (do not allow to dry before rinsing).

Rinse abundantly while brushing to achieve a better result.

Reapply if necessary.

Rinsing can be done using a pressure washer (be careful with the wood variety).

Once the desired result has been achieved, leave to dry through before applying any treatment or coating.
