

PROTEG PVC JAUNE

HAND-CUTTABLE STRIATED ADHESIVE

1. PRESENTATION

PROTEG PVC JAUNE is a **striated, hand-cuttable** adhesive used for temporary protection, which can be applied on **any smooth substrate**. Used for **protection as well as adhesion**, it can be removed without leaving any trace.

2. ADVANTAGES

- **Clean cutting by hand.**
- **Avoids adhesive shrinkage (thanks to its easy cutting).**
- High workability.
- Conformable, it moulds itself well to the different shapes of substrates.
- Leaves no trace (or glue transfer), even after several days.
- Its striation allows for precise cutting without deforming the film, thus providing clean, accurate and effective protection.
- Significant time savings.
- Can be used both indoors and outdoors.
- Safe for the user.

3. AREAS OF APPLICATION

Its mild adhesion means it can be used to protect all common building substrates, both smooth and delicate, such as:

- Varnishes, wood stains, paints, etc.
- Mortar, concrete, coating, granite, marble, brick, terracotta, slate, etc.
- PVC, aluminium, wood joinery.
- Wall covering.
- Glass, tiling, faience, etc.

It is perfectly suitable for the jointing of insulating panels, thus avoiding thermal bridges.

4. INSTRUCTIONS

Applied manually on clean and dry substrates.

Stick the adhesive tape and roll out the film on the substrates to be protected or taped.

5. CHARACTERISTICS

Dimensions	: 50 mm x 33 m Code 619
Substrate	: Yellow embossed PVC
Type of adhesive	: Rubber
Overall thickness (µm)	: 150
Adhesive strength on steel (N/cm)	: 1.4
Breaking strength (N/cm)	: 20
Elongation at failure (%)	: 120

6. SAFETY OF USE

- Store in a temperate room.
- Always perform a preliminary test on paint and varnish.
- Once the coating is applied, it is recommended to remove the temporary protection.
- Substrates must not be friable and shall be even in order to achieve good adhesion.
